

Holly Davison of Davison Art and Education

MASTERING TRANSITIONAL LIGHT IN THE LANDSCAPE

CREATING DYNAMIC IMAGES OF SUNSET, TWILIGHT, AND THE NIGHT'S SKY

Holly Davison is not only a published landscape photographer and permanent member of Whidbey Art Gallery, Holly is also an expert teacher with a Master's Degree in Education. Holly has decided to combine her knowledge and passion creating an intensive course that will push your photography to the next level. Holly Davison is a single shot photographer. Holly will challenge you to see the light within the confines of the camera sensor and push you to expand your knowledge of how light works.

In this five hour hands-on workshop Holly Davison will teach about composition, shot planning, maximizing image data using the histogram, and post-processing demonstration using Lightroom. The pace of instruction will vary based on experience level.

Email hollydavisonphotography@yahoo.com to reserve your spot.
